MUHAMMAD JASEEM

Full Stack Developer

Perinthalmanna, Malappuram, Kerala, India | mhdjaseemtk@gmail.com | https://jaseem.work/
GitHub: https://github.com/mhdjaseemtk | LinkedIn: https://www.linkedin.com/in/mhdjaseemtk/

SUMMARY

Passionate Full Stack Developer specializing in building modern, scalable, and user-friendly web applications.
Primary focus encompasses MERN stack, Next.js, TypeScript, backend architecture, REST API development, and database management. Passionate about problem-solving, emerging technologies, IoT experiments, and building innovative products.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Python, FastAPI, REST API Development

Databases: MongoDB, PostgreSQL, Redis, DynamoDB, Elasticsearch

Tools & Technologies: Git and GitHub, Docker, RabbitMQ, AWS, Linux, Nginx, PM2, Prisma, Alembic

FEATURED PROJECTS

CRM Platform | *Enterprise CRM Application* **FastAPI, React, PostgreSQL, Alembic**
- Enterprise CRM application with lead management, contacts, accounts, opportunities, tasks, and workflow management.
- Implemented relational schema modeling and automated database migrations using Alembic and PostgreSQL.

Healix E-commerce | *Full-Stack E-commerce Platform* **React, Node.js, Express, MongoDB**
- Built full-stack e-commerce system with product management, secure authentication, shopping cart, and admin dashboard.
- Open-source repository structured with MERN stack architecture: github.com/mhdjaseemtk/Healix

VenVision Jewellery E-commerce | *B2B Jewellery Platform* **React, Node.js, TypeScript, MongoDB**
- Jewellery platform featuring B2B business registration, verification workflows, product management, and admin interfaces.
- Ensured end-to-end type safety across client and API contracts utilizing TypeScript and MongoDB document modeling.

Wellnora Hub | *Online Wellness & Counselling Platform* **Next.js, TypeScript, Tailwind CSS**
- Online wellness and counselling platform concept delivering a modern web experience focused on accessible online support.
- Designed responsive, empathetic user workflows with Next.js App Router and Tailwind CSS.

IoT Projects | *Hardware & Software Integration* **Arduino, Raspberry Pi, Python**
- Hardware and software integration experiments utilizing Arduino microcontrollers and Raspberry Pi single-board computers.
- Interfaced physical sensor telemetry, GPIO controls, and communication scripts with modern software layers.

EXPERIENCE & EDUCATION

Full Stack Development | *Professional & Freelance Development Experience* **2024 - Present**
- Building modern, scalable, and user-friendly web applications, REST APIs, and backend architectures.
- Architecting responsive user interfaces, database schemas with PostgreSQL & MongoDB, and full-stack solutions.

Bachelor of Computer Applications (BCA) | *Manipal University Jaipur* **2025 - Present**
- Academic focus on Computer Science, Software Engineering, Database Systems, Web Technologies, and Data Structures.
